

## BULK MILK COOLERS

Used Model RH(S)

The Mueller RHE milk cooling tank is a circular, open top model suitable for manual cleaning using hot water and a cleaning agent. The RHE tank is made of Stainless Steel, AISI 304 (DIN-1.4301), and meets the ISO 5708 requirements for bulk milk coolers. The inner and outer vessels of the tank are polished in such a way that neither bacteria or milkstone will adhere to the vessel surface. The tank is easy to control and easy to be cleaned manual with hot water and a suitable cleaning detergent.

With this model you get a high milk quality at a relatively low investment. This model is also available as a new tank.
